PROSPECTUS

FOR PUBLISHING AT THE CAPITAL OF THE STATE, THE PROCEEDINGS AND DEBATES

CONVENTION OF KENTUCKY, To be held at Fraukfort, on the first Monday in October next, to adopt a New Constitution for the State.

THE following resolution has been adopted by the Legislature, and approved by the Governa, vtz. . Resolved by the General Assembly of the Common-\*\*Resolved by the General Assembly of the Commonwealth of Kentucky. That John W. Finnell and William Tanner, be and they are hereby authorized to procure the erevices of a corps of competent and faithful Reporters to report the Proceedings and Debates of the Convention, called to mostly, aneud, or re-adopt the Convention, called to mostly. Providen That the contract, when made with the Reporters, shall be submitted to, and approved by the Governor of the Commonwealth. Under the sanction of this authority, the services of the most competent Stendgraphers to be procured in the Lydon Red. Land approved to report in full the PROCEED.

the most competent Steuographers to be procured in the Union, will be secured, to report in full the PROCEED- INGS and DEBATES of the Convention to meet as above.

THOS S. PAGE.

P.S. I will also sell the House and lot, lately occupie to the Turupike from the above, and owned by myself and James Har

The Reports will be more full and accurate, it is believed, than those of any similar body, the proceedings of which now constitute part of the history of the constitutional science of our great confederacy. For, besides having the official sanction of the Convention, and the Patent Improved and Ventilated supervision of the legislative agents named in the reso lution above, they will first be published in a cheap daily edition, and if any inaccuracies should occur in this they will be discovered and corrected before the matter of the Reports is transferred to the book form in which they are now proposed to in published

The progress of Constitutional reform in the United states is not one of the least interesting features of our national prosperity, as it shows the growth of the public nund in the appreciation of the science of government, and has kept up with the increase of population, of power, and of glary.

Our own State Constitution, now entering on the advance I age of half a century, in the vigor of its maturity, was amongst the best of its day, as the hardy and

to evoke the purest elimerples in the science of government, and to be characterised by a dignity of manner and elegance of style which will commend them to the interary taste, and general interest of all classes of our le ow citizens. But the greatest value which will at the object of this priposed authorite history of the Convention, and that which will most commend it to the public patronage, will be us capacity to show to the people and to gosterity, the process and reasons which led to the adoption of the organic law of the State, and to the adoption of the organic law of the State, and to the adoption of the organic law of the State, and to the adoption of the organic law of the State, and to the objects for which they are designcolare to them, in clear and unmistakable language, motives which governed the builders of the arch of their civil and religious liberties; in lact, the mode in which every stone of the political editice was laid,

lu 1757. Mr. Manison foresaw with the ken of a prophet, the lafter generations would seek with the ratical avidity of curious and inq iring minds, for the which formed the Constitution of the United States, to enable there to see by what process of reasoning the new system of government adopted by them, received its secular structure and organization. Congress paid for his comparative meagre, but accurate and interesting reorts, in a anuscript, thirty thousand dollars, and the people in every State and in almost every town and county in the Union, sought to secure copies at a high price. It is true that Convention was forming a CHART-ER OF LIBERTY for a NATION; and when the work of th ir leands has withstood the scrutiny of mind, and defied the vicissitudes of time for nearly three-quarters of a century-the interest attached to their proceedings, is greater than can be claimed for any other produc tion of the genius or intellect of man.

It is here proposed to do for Kentucky the work which Mr Madison pert rmed for a Nation, and the prediction is ventured, that ffty years will find the history of the Convention in Kentucky, to possess scarcely less prompt attention interest than that of the conscript lathers of 1387.

By securing a copy of these Debates, every man will have the arguments and reasons before him, to guide him to an intelligent decision when the new Constitution shalf be submitted to his approval; and thus, whether good or bad, he can act upon it as a discrimi nating judgment will dictate. Hence, we rely with confidence on the intelligence and liberality of our tellowcitizens to extend to the proposed work, a patronage commensurate with its importance and its intrinsic A. G. ### KENTUCKY STATE CONVENTION

OFFICIAL REPORTS.

MR. R. SUTTON, CHIEF REPORTER.

WEDNESDAY, OCTOBER 17, 1849. Prayer by the Rev. Mr. Lancaster.

Mr. MERIWITHER, who has been detained from the convention for several days by severe indisposition, this morning resumed his seat. LXPLAN VTION.

Mr. TURNER rose to correct a misapprehen sum of the remarks he made a few days since on presenting the report of the committee of which he was chairman, with which the committer were dissatisfied.

What he intended to say on that occasion was that there were several in inders of the commit-tee who did not concur in the report so far as if affected the election of several of the minor of fivers, such as surveyors, coroners, and jailers, but that a majority was in favor of electing those officers—and also, that one memb r of the com-mittee did not concur in the proposed restriction as to age to be required of the candidates for of fice, as the people ought to be the sole judges and had a right to elect a man of any age they

thought proper.

Mr. GAITHER was glad the chairman of the committee hal made this explanation, but did not think it went far enough to meet the impu-

at least one has be of the concite. The sale has the half said that one member of the committee was not disposed to have any restriction as to the age, qualification, or any thing else of candidates for office. That was an awkward position to be placed in, and one which he did not wish to be caused with having assured. no wish to be charged with having assumed It was his lot to differ with the gentleman and others of the committee, in relation to what is called the conservative principle; but he want-

called the coaservative principle; but he wanted may be a to be required, although he was opposed to some other restrictions.

Mr. TURNLR shad understood the gentleman's position to be as he (Mr. T.) had before state l, but if he was mistaken he would be hap-

py to be corrected.

Mr. GAITHER. You're mistaken. Mr. TURNER was very stall then that the gentlem in hall corrected him.

After some other observations the conversation dropped. RIPORT FROM A COMMITTEE.

Mr. DESILA, from the committee on militia, made the following report, which, on his motion, was referred to the committee of the whole and ordered to be printed:

ARTICLE -

Sic. 1. The militia of this commonweal's shall consist of all the free, able holied male persons in grocs, and those, and Indians except ed. resident in the same, between the ages of eighteen and forty five years, except such persons as now are, or hereafer may be, exempted by the laws of the United States, or of this State; but those who belong to religious societies whose times forbid them to carry arms shall not be complified to do so, lett shall pay an equivalent for nor and a shall pay an equivalent for nor and a shall pay.

POPI LAR ELECTIONS. Mr. GHOLSON offered the following resolu-tion, and caded for the vas and nays thereon: Resolved. That the good people of this commonwealth are fully couptent to judge of, and decide upon, the qualifictions of all candidates for any office whether the same be legislative, executive, polecule or monisterial; wherefore, a certificate of election, a rossling to law, is the only a re-beats of qualiti ations that shall ever be required to enable and citiz noto enter upon the discharge of the daties of the office to which

the proposition, that I am rather in lined orthink he bimself wants time to reflect upon the subject. Is he prepared now to say that the judges of the cour, of appeals shall have no qualifica tions who ever; and whether they are twenty on years of az or not, or learned in the laws of the are competent to adject of all these qualities thous? That may be so, or it may not be so.—
The gentlem or from Ballar I must be ar in mind. it is a physical incressibility, that in the very nature of things, all the voters who are to vote for or against the election of judges of the court of appeals can be a quanted with their qualifi-cations. The present proposition is to elect four julges of the court of app als, one in each district; has appose it is not a lopted by the convention, but that the four julges shall be cheeted by all the vot rs of the state-los the gentle and intend to lay down the proposition that the voers of the county of Daviess are not to be entitle i to all the light that can be given obtained, of cleening all these officers. to be entitle i to all the light that can be given to them when they come to vote for a candidate that may reside in the county of Bracken, or the court of appeals, or of a district judge, or of the county courts, of judicial that may reside in the county of Bracken, or Kaox, or Harlan, or in any of the most remote counties of the state? And the same may be said upon the sub-set of electing the clirks of the count of appeals—for Linders and that we are to elect four elects of that count, and have four different sets of records. It is a fair presention, when the people of Kentucky that the same people are not competent to judge of the quality atoms of the other and minor officers? I non-what principle is it that this same people are not competent to judge of the quality atoms of the other and minor officers? I non-what principle is it that the same people have sent one hou heed gentlemen here, that they are at least a fair sample of the intelligence of the state. Why send them at all, unless at least they are an average, if not above an average, of the general intelligence of the people of Ken-tucky. But I acknowledge that I am not very well qualified to judge what are the proper quali fications of a clerk of the court of appeals. Here-tofore, when the judges of the court had the power to give the office to whom they pleased. there was an examination of the candidate duly made before them, and it was only upon a certi ficate that he was competent to make a good clerk that he received the appointment! Are not the people entitle I to have this information conveyed to them? Or the whole of the one hundred members in this body, except half a dozen. perhaps, and the political lion of the tribe of Judah, from Nelson, and his colleague, and some other old lawyers, there are none who

I hope the re-olution may be laid over for a tim

day or two, we shall show that we too are determined to trust them. We came here with that vi w, and it is not worth while to make a general dec'aration of it. The report of the committee on the court of appeals, as well as those that l ave been male from other committees show that we are in favor of restoring to the people their richs. As to this sweeping resolution proposed by the gentleman, I suppose if it in any anriching, it intends to strike at some of the details of the report in reference to circuit and county courts, it may be, the provision that no man shall be run as a caudidate for the odice of clerk unless he is qualificated to the odice of clerk unless he is qualification. ed and that he must be examined and get a cer-tificate of his ability. I think it is a very valuable requisition to say to a man who comes for ward as a candidate, you shall have the testimonial of your qualifications, and you shall not be elected because you are a sneeceful demagogue on the stump. I am greatly in favor of throwing back all the power to where it originally belonged, (the people), but let us not run the thing too far. Let us not go too far. We are pressing it too far if we say that men shall be elected clarks, who perhaps were scarcely ever in a clerk's office in their lives. We have prejudices to encounter in establishing this new system; and incleed one of the very objections I have heard urged against the elective system, was in regard to this very subject of the election go out to hant such game as the grisly bear

I go out to heart such game as the grisly bear of the Rocky Mountains, I do not stop to trouble covelf about the little bears that arise hut leave them to be attended to at my lisure. And that is the way I got rid of the dection of clerks in the election; but I nev r did intend, so far as I could prevent it, that a man should be elected clerk without the proper qualifications. I hope we may give the good that I hope, therefore, we shall not vote how on this resolution, as the subject will soon cause up in it would be more tasteful to the country if we should require some qualifications before the majority of themselves before the majority of the work when a young man that I have seen many a young man the proper qualification.

proper qualifications. I hope we may give the subject the go-by at present, and that the resolution may be printed.

I know that my friend from Ballard labors to the same on I that I do—to give the great elective frauchise to the people, where it naturally and of right belongs. But let us labor to make a good system, without running into too much detail. When I have done that, I shall feel as Eaguey Edwards' more adid, when he saw his a good system, without running into too inner detail. When I have done that I shall feel as Barney E Iwards' negro did, when he saw Lis master after a long absence. Said he, "I have seen the face of my master, my God let me die." When I have seen such a system securel, I shall with the exercise of their sound judgment and that in the exercise of their sound judgment and will network a light product the control of the contr

motion. I am unprepared to vote for the resolution of the gentleman from Ballard, (Mr. Gholson,) not that I am unwilling to trust the people—not that I do not feel that they are competent to select proper officers—but that I conceive it necessary that the resulut ou should be considered. I am willing to trust the people when they desire to be trusted, but surely every officer should have some qualifications. I move that the resolution lie on the table for the pres ent and be printed.

Mr. CLARKE. I barely desire to remark that

upon general principles, I am inclined to concur with my friend from Ballard, and think that ultimately I shall support his resolution. It in-volves a great principle, and one that perhap-ought more deliberately and more maturely to engage the consideration of the convention. I am will be to come be that the clerks ought to be salified to the discharge of the duties of their spective offices, because the clerk of the cirrespective offices, because the clerk of the ciruir court, the county court, and the court of appoil have very important and responsible duties
of perform. But there is nothing connected with
he disebarge of the duties of a clerk in which
he people, among whom he lives, are not directy and immediat by interested. I hold it to be

But when he is elected by the people, and takes his seat, he has then one-third of the sovereignty of the state in his own hands. He becomes a part of the law-making power of the state. It is not insisted upon that he shall undergo an examina-tion before he takes that position, but it is insist-ed that a clerk shall be so much more qualified to discharge the duties of his office, than a leg-Mr. FRIPLETT. Are we to vote upon that islator, that a tribunal must be established for resolution without disension or foreshought, jauge of his qualifications. If the principle be and a lope as a constitutional provision now, instantly, rule situtingly, a matter of as much importance as probably any other provision that is likely o be a limitted to this House? Do any of our rules inthorage the casting of the proper state of political power, why not leave with the people, who are directly interested in the the prope, who are directly interested in the peak and ray beto e we have hall any time to ascertain the full langh, and breadth, and dpth of a proposition like this? For one, I am not prepare I to yield for it throughout, or against it throughout, or all want time for reflection; and let me say to the honorable mover of the transposition that honorable mover of the transposition that honorable mover of the transposition that had a very attempt to withhold from them the xercise of that power, unless you can show a good and sufficent reason for withholding it Learn yelf perceive no reason, either potent of powerful, or more satisfactory to my mind, wh power should be given to the people to judg of the qualifications of a candidate for th ate, or the lower branch of the legislature of Kantieky, or of a judge, if you please, and at the same time, the power should be withheld from the people, to judge of the competency of a candidate for a clerkship. Now, I doubt not there is a majority on this floor who will ultimately maintain that the judges, as well of the circuit and county courts, as of the supreme court of the state, shall be elected directly by the results. people. I understand that question to have been decided in the recent contest for the elec-tion of delegates to this convention, and I ap-

But I would suggest that, justead of demand are competent to judge of the qualifications of a clerk. As for myself and others around ted, it would be more consistent with the present disposition of this body to refer it to the committee of the whole, and select some early day for its discussion; for, if I am not mistaken, t is one of the gravest questions that has been

submitted to this convention. Mr. HARDIN. I am always gratified when I Mr. HARDIN. I concur in all that was said way my friend just up, except in his compliment son, for he is certainly a very cloquent man, and it is to guard against that very kind of thing to invself, and to that I dissent. I do not want to vote on this resolution at this time, nor is it necessary, for we are showing in our reports every day, that we are willing to return the election of officers to the people. And when the committee on circuit courts, of which I have the honor to be a member, and of which my worthy friend from Ballard is a most worthy in the interest of the people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to judge, but from the inability of the whole people to ever know how he votes, (as they do in Indiana,) execute the office, and with a view of relieving looks as if he were afraid his neighbors would them from that trouble. It was merely to present this view of the subject that I rose.

of the circuit courts be qualified in the same retests. Very in and there is of clerks. So far as I was concerned, I always gave it the go-by, by saying it was time enough; but I always intended to guard against it, when the opportunity offered. I was striking at the great offices of this commonwealth—and when I would be some country if we have the country if we it would be more tasteful to the country

come up in its appropriate aspect.

Mr. CLARKE. 1 am aware that it is owing the over-tlowing kindness of the gentleman from Nelson, rather than to any merit of my own, that I have received the compliment which he has just paid me. I am not opposed to qual-fications, nor did I assert such a principle. well matured discretion, they would make a proper selection. That is the ground I take. I proper selection. That is the ground I take. I have never argued that a judge or a clerk should not be qualified to discharge the duties of his office; but I assumed the ground which is assumed in the resolution of the gentleman from Ballard, that the people alone are qualified to judge of his qualifications. If they are qualified to judge of the qualifications of a President of the United States, in whose hands are thrown all the diplomatic relations existing between this country and foreign nations, and who wields more patronage and power than any other officer, or ten officers in the United States, I maintain they are competent to judge of the qualifications of a clerk, whether of the circuit urt or of the court of appeals. Thave assumed and that is the reason I made the suggestion to my friend from Ballard, that there may be reasons interposing to exclude the election of a clerk by the people, unless he has undergone some examination. As yet, however, they have not occurred to my mind, and it is to hear such reasons, if there are any, that I suggested to my friend from Ballard, the propriety of refer-ring his resolution to the committee of the whole, with the assignment of some day for its

Mr. GHOLSON. I certainly most cordially reciprocate the kind sentiments expressed with regard to myself. I certainly have no disposiregard to myself. I certainly have no disposi-tion to introlace anything here that shall pro-duce unnecessary debate, or lead to an unprofi-table consumption of time. But maintaining as I do—having maintained it before those who sent me here, and that sentiment being, as I be-heve almost unanimously entertained by them— that the people are capable of self-government, and verifier as I think a disposition here to and seeing, as I think, a disposition here to deny this great fundamental principle that all power is inherent in the people, and that they alone have the legitimate right to exercise that power, I desire to test the question at once. What light does any bearned gentleman need on prower, I desire to test the question at once. What light does any barned gentleman need on this subject? Is any gentleman prepared to say that the people are not capable of self-government? or that they are not competent to choose a clerk? Is any gentleman here prepared to say a clerk? It is the right of every man, of every free man, to exercise the privilege of selecting the public servants. And it is for this right that I contend. Mr. IRWIN. I have no objection. Mr. MITCHELL. With the gentleman from Princeton, N. J. Ballard, I am always ready to vote on a question involving the rights of the people, and I am prepared now to vote on this proposition. It seems to me that there are two questions involved in the resolution, and it has been my purpose Charleston, S. C., 17 to ask for a division of them, when the question shall be taken. One is the abstract proposition— Lonisville, Ky., are the people capable of self-government?—on which I shall vote in the affirmative, believing Nashville, Temt., 9 that there is not a question upon the subject. But the other proposition, whether any qualifications for office should exist, is a question which should be considered. Let me suggest, as an additional reason, that in regard to clerks, there is a proposition of the subject. State here come out in favor

The Mother of Washington.-We have reeived the following letter, in reply to the inquies of a correspondent from New Jersey. It is byiously not designed for publication; but it ontains some matters worthy of insertion, and av lead to information from other sources. It not yet too late to gather a great many partie lars of her who gave birth to, and reared, the reatest man the world has known. We beg any gentleman, who may be in possession of any acts, or who can procure them, to do so, and orward them to us.

Wistmori Land, Sept. 27, 1849. Gentlemen: I observe the inquiry addressed to "G. W. L. of Westmoreland," (I presume to me,) in your paper of the — instant, in relation to the ancestors of General Washington's mother. I regret that I am mable to give your correspondent from New Jersey the information he seeks. All the information I have concernhe seeks. All the information I have concern-ing Mrs. Washington's progenitors is derived from vague and uncertain tradition, upon the ac-curacy of which I place no reliance myself, and would not communicate it to others as authentic history. Indeed, to be candid, I have never made the maternal ancestry of Gen. Washington I the subject of inquiry. From some cause, it seems to have been very generally over looked, very unfortunately and improperly I think, for all who know his pather, and there are some all who knew his mother, and there are some living now, or were a few years are, who remember her,) conenr in ascribing to her many of those emergetic and heroic traits of character, for which her illustrious son was emin nt, and which would have distinguished an indorned a Roman matron. I have always believed and maintained, that the herb moral and inclhectual conditions are him at her words. profiting by the fact that the police force was engaged in keeping order about the various cleetion polls, a gaing of rowdies with a furnimer ear, in which was a blazing tar harrel, came up Seventh street and rashed down St. Mary street, which is inhabited principally by negroes. An attack upon the California Hoase having been feared, the riotons party created much excitement, and as they passed down St. Mary street, stones were thrown and a couple of discharges of pistols were heard—followed by an exciting rumor that a white man was shot.

The normal and intellectual qualities are nine times on of ten under rived from the mother. General Washington's father was wholly undistinguished—not even filling the most interior and subord navegrade of civil offices and employments in his country. It does not appear from our court records, that he was even in the commission of the peace.

I have heard my grand tuber tell many aneedotes of Mrs. Washington; all tending to prove her a woman of the nobiest sense of honor and virtue—of masculine unit legistation and energy of spirit—and a right disciplinarium—as

more about it.

There are those, perhaps, living in Notthumberland, of the Ball family, who could shed some light upon the ancestry of Mrs. Washington. On the day that I received your paper, a gentleman atmy house mentioned an old lady in New Kent county, who was well a quainted with the Washington family, and who, he thought, might mmunicate something satisfactory in regard o the question. Her name I do not remember think it probable that the Rev. Edward Me-mire, of Frederick-burg, who macried a Miss lewis, and has written a book to prove the religious character of Washington, may know something about it.

You see I am groping in the dark, and, after all I have said, leave you as much in ignorance about the matter as you were at first. But i

The facts, as nearly as they have yet been a scretained, are as follows: Stevenson came to the house of Waters late at night. on his way back to England. He left there in April, 1848; and from the Sault Ste. Marie has made the voyage in canoes and boats and overland, a distance of three thousand five hundred miles and back, by the way of the Lake of the Woods, and Mackenzie's river. After reaching the Arctic Occan, they travelled five hundred miles along the coast. He speaks confidently of the existence of a northern passage; its pacticability, he says, is another question, the summer being only from thirty to sixty days long. He on his way back to England. He left there in son came to the house of Waters late at night,

LIBERTY IN FRANCE.-The existing phase of the French Republic, is thus described by Mr. BRY-ANT, editor of the New York Post, who is now

At present there is very little political liberty in France, except the liberty of suffrage. The pulice can seize the printed sheets of any journal the can serie the primed sheets of any journal containing expressions which the government happen to dislike, and prevent its circulation. The law punishes with severe penalties the vague offence of printing and publishing any thing which is calculated to bring harred and contempt on the government, and therefore a trial her jury is allowed in such against all the jury by jury is allowed in such cases; all the jury , is to say whether the obnoxions article was published or not; the judges, who are creatures of the government, decide whether the law is violated or not. There is no chance therefore, of escape, when the government has marked out its victim. People are arrested and detained, by order of the government, and there no process like that of our habeas corpus, to deliver them, if confined on a frivolous or in-sufficient pretext. There is no liberty of assemlding to express public opinions on political questions, in addresses and resolutions, or we should have seen the entire people moving on the Roman question. In short, here is a govern-ment, with popular forms, conducted in the worst spirit of oligarchy, and allowing ample scope for the exercise of the most capricious ty

## The Knickerbocker Magazine.

THIS is pronounced, by the press of America and England, the best Magazine in America. It has nearly reached its thirty-fourth ralume, and in itn list of upwards of a hundred contributors are to be found the names of every distinguished writer, male and formale, in America, with several equally prominent of Great Boitain, Turkey, Sweden, &c. A new volume, coutaining a superh engraving, a portrait of the editar englaved by Cheney, from a painting by Elliott, was commenced on the lirst day of July, 1849. The following notices of the Knikkernocker are from the American and English press, and from American and British writers of distinction.

the Knikernocker are from the American and English press, and from American and British writers of distinction.

'The Knickerbocker.—The last number of this venerable and widely-popular periodical appears upon entirely new and heautifultype, in all its departments; and in its rich and diversified contents, continues to vindicate its reputation as the most agreeable and entertaining Magazine published in the United States. When we first started the old 'New Yorker,' our friend Clark had preceded us as Editor of the Knickerbocker about a twelve-month; it has now teached an age greatly be yould that of any American Monthly; a fact which literally 'speaks volunes' in praise of the manner in which the work has been conducted. No number of the K, has ever been issued under Clark's supervision that did not bear indubitable evidence of editorial care, and any ious thought, and well-directed labor enstamped upon its pages. We have known no monthly, of this country or Europe, so thoroughly edited, in the strictest sense of the term.—Men York Daily Tribune.

'Mathematicians tell us of certain curves called asymptotes whose peculiarity is always to approach each other, and yet, even when infinitely extended never to intersect. The Kniekerbocker, which has reached an age for a magazine much greater than a hundred years for a man, and only to be attained by a more marvel lons miracle, has perpetually approached the highest possible point of interest and excellence; and yet it seems to have an excelsior, for each number seems hetter than that which went hefore. How it is done our friend Clark may understand—but it is a sealed mystery to us. There is no publication in the United States that has so attractive or popular a feature as the Editor's Table of the Knickerbocker.'—New York Caurier and Enguirer.

'We regard it as the very best work of its kind in the

Enquirer.
'We regard it as the very best work of its kind in the Union.'—St. Alban's (Va.) Journal,

Union.'—St. Alban's (Va.) Journal.
'Its contents are as invariably good as its appearance its punctual.'—William Collen Bryant, in the New York Errning Post.
'Its articless are worthy of Blackwoon's palmiest days. The Editar's Table is in Mr. Clark's happiest vein; varied and racy in a remarkable degree.'—New Yark Commercial Advertiser.

tronal Intelligencer.

'The KNIEKERROCKER is one of the most valuable magazines of the day, and omistrips all competition in the higher walks of literature,"—Alibany Argus.

'The Editor's Talde alone is worth the price of the work. It is not a periodical to be lightly glonged over and thrown by, but it forms a library book to save and retead. A set of the Kniekernocker, bound up in volumes, on the shelves of one of our popular libraries, is more consulted (so the librarian has often told us) than any other similar work.'—Boston Durly Transcript

Pressident—I peruse the Kniekernocker with high gratification. It seems to me to be of an order of merit quite above the recrage of the periodicals of this class, English or American. Intel Secretary of the Navy.—The manner in which the Kniekernocker is conducted, and the great merit of its contributors, place it in the highest rank of periodicals.'

Propressor Longellow, Cambridge University.—The Kniekernocker stands high in this quarter. It is superior to most of the English magazines, and well deserves its large list of subscribers."

Hon. Robert M. Charlton, Geargia — The Knieker Booker is a work which requires no puffing; and I shall always feel that I am conferring a favor on those to whom I recommend it.'

The London Examiner.—'This very clever Mazazine is the pleasantest periodical in the United States. Its articles, which are numerous and short, various and finarticles, which are numerous and short, various and finarticle

THE LONDON EXAMINER.—'THIS VETY CLEVET MAZAZINE is the pleasantest periodical in the United States. Its articles, which are numerous and short, various and Interesting, are well worthy of imitation by our Magazines on this side of the Atlantic."

London Morning Chronele,—'Judging from the numbers before us, we are inclined to consider this the best

lish readers. Landon Metropolitan Monthly Magazine. We

have read several numbers of this falented periodical, and rejoiced in them. They would do credit to any country or to any state of civilization to which human-

THE ONLY REMEDY!--HART'S VEGETA-BLE EXTRACT. Is an invaluable remody for Epilept'c Fits, or Falling Sickness, Convulsions, Spusms, &c.

Falling Sickness, Cunvulsions, Spasms, &c.

It is well known, that from time immemorial, Physicians have pronounced Epileptic Fits incurable. It has baffled all their skirl, and the boasted power of all medicine, and consequently thousands have suffered through a miserable existence, and at last yielded up their lives on the altar of insangly. Physicians of every ace have pronounced this disease incurable. The proprietors of the vegetable Extract, however, led no delicacy in saying, that it can be ented. They would, therefore, respectfully invite Physicians and all others who are interested, to examine the lest mony which is here offered, If it is deception, let it be exposed; but if it is true, then in the name of humanity, no longer let it be said that Epilepsy is incurable.

HART'S VEGETABLE EXTRACT. For sixteen years, has been tested by many persons who have suffered with this dreaded disease, and in every case where it has had a fair trial, has effected a perma-

case where it has had a fair trial, has effected a permanent cure.

Eol. Benslow, of Yonkers, New York, states that his daughter has been afflicted with Fits for more than mine years, and has been cured by the use of the Vegetable Extract.

Mrs. J. Bradley, 115, Orchard street, New York, states that she has been subject to lits for many years, and has been restored to perfect health (after every other means had faired) by the use of the Veget le Extract.

Dr. Charles A. Brown, of Bover, Russell county, Alabama, who is one of the less thussell county in the State, says that he has been much benefit of by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge.

Brather laborer in the cause of Humanity:

Dear Sir:—It is with no small degree of pleasure that I am enabled to amounce to you the complete trumph of your invaluable medicine, in cases of Epilepsy. I have prescribed it in four instances in this vicinity, and it has been highly successful in all. Three of the patients, I trust, have been radically cured. The fourth one is rapidly improving and will, I think, without doubt recover, I am not in the habit of prescribing or recommending Patent Medicines, but when I see an article which promises so much for the relief of suffering humanity. I bed it my duty to recommend it; and I have no hesitation in saying, that as soon as the Faculty are fully acquainted with the real merit of your medicine, they will close their eyes against prejudice and lend you a helping band. I subscribe myself, yours, sincerely, (Signed)

To the Farmers and Drovers of Kentucky, O'NE year has now nearly clapsed since we first laid the foundation of our business in the State of Kentheky, and in approaching another season's operations, we cannot refrain from expressing our gratitude and thanks for past patronage, and hoping that such may be continued to us.

We have made considerable improvements in our establishment, and will be prepared to execute twice as much work as last year, with much greater facility. We are about erecting a new Seading Slunghter Honse, and enlarging our Singeing Bed to twice its original size, so we compute we shall now be enabled to slaughter with facility from 180 to 1,000 flors daily.

We have added considerably to our flog Pens: all have been re-floored and put in a thorough state of repair.

Our Commission Purk Picking Business will be continued as usual; and our drover friends will at all times find us most anxious to facilitate their views, and execute to the utmost of our ability, my business extending the state of the st

execute to the utmost of our ability, my business extend In our last senson's operations we had much to contend against in the shape of opposition, prejudice, and by malicious reports, &c. These obstacles have heen triumphantly surmounted. Kentucky Farmers and Drovers have had an opportunity of proving that our business is conducted with liberality and foirness. We think they are satisfied, and can assure them it will be our aim to reuder them more and more so each successive year.
